

YANN BOUILHAC

WEB ENGINEER

PROFILE

Web engineer with a strong knowledge of back-end (object-oriented programming in LAMP environment) and front-end (XHTML, CSS, AJAX, cross-browser) development.

Also a good knowledge of standards (W3C) and a particular attention to accessibility and usability to deliver high quality projects.

EXPERIENCE

WEB ENGINEER, GROUPE REFLECT LIMOGES, FRANCE SEP. 2006 - DEC. 2007

Technical analysis and development of websites and intranets using mostly PHP/MySQL, XHTML, AJAX and CSS. Use of the Zend Framework in our latest projects (VNUnet, Top Santé).

<http://www.groupereflect.net>

CO-DIRECTOR, AQUARAY SARL PARIS, FRANCE MAR. 2003 - MAR. 2006

I found AquaRay with 4 friends in 2003. It is a web hosting company specialized in Apple technologies (Mac OS X Server, xServe, xServe Raid), web development and streaming.

<http://www.aquaray.com>

WEB DEVELOPER, ACCESS PRODUCTION PARIS, FRANCE APR. - JUN. 2005

Design and development of <http://www.access-production.com> for Franck Mastelinck, a production manager. The site contains a public section, a private section for customers and an administrative section for content management. Developed in PHP, MySQL, HTML, CSS and Javascript.

WEB DEVELOPER, BETTA SPORTS BRIDLINGTON, ENGLAND OCT. 2004 - FEB. 2005

Design and development of <http://www.flash-hard.com>, an online cricket shop. The site also contains an administration section for content management. Developed in PHP, MySQL, HTML, CSS and Javascript.
